How to order

Mold prices vary by model and order quantity. Send your model codes, quantities and delivery location, plus the machine model and any required cavity size or piece weight. We will confirm specifications, availability, lead time and pricing before your order.

A note on the specifications

Model references and technical tables are reproduced from the supplied catalog. Listed weights depend on the product and formulation. Blank fields are unspecified; confirm dimensions, materials, coatings, operating limits and equipment fit with Evocan.

Silicone molds

Flexible formats for your next confection.

Choose a model and confirm the mold footprint, cavity details and fit with your depositing process.

Let's plan your next batch.

Tell us the model codes, your quantities and the production setup you are working with. Our team will help confirm the details and prepare your quote.

01 / Select your molds

Choose model codes from this catalog, or describe the shape and dimensions you need.

02 / Confirm the fit

Share your equipment model, product, target piece weight and process requirements.

03 / Request your quote

We will confirm price, availability, shipping and payment details before your order.
